

Konftel Wireless IP

Konftel 300Wx + Konftel IP DECT 10

Wireless freedom combined with excellent audio quality. Konftel 300Wx now provides HD audio via the Konftel IP DECT 10 base station. Give your conference calls the full dynamics they deserve!

HD audio provides the best sound possible for a much more natural sounding conference call. Every variation of the voice is heard for a much smoother experience.

You can now have wireless conference calls with HD quality over your VoIP system. The Konftel IP DECT 10 base station connects via SIP and can have 20 Konftel 300Wxs registered and support up to five simultaneous HD calls.

The Konftel 300Wx can be set up with IP DECT bases from third-party suppliers that Konftel supports, but the Konftel IP DECT 10 gives you unique advantages and makes it easier to get started. Note that firmware release 1.9.3 or later is required for the Konftel 300Wx.

ADVANTAGES OF THE KONFTEL IP DECT 10 AND KONFTEL 300WX

- The solution supports HD calls over IP
- Take advantage of the strong audio qualities in your conference phones based on Konftel's patented OmniSound® technology
- Simple registration
- Wireless freedom for your conference calls

Simple registration – it's this easy to get underway

The Konftel IP DECT 10 is always in registration mode and ready to register phones. The Konftel 300Wx automatically prompts you to register the phone to the base station if this has not already been completed.

The Konftel 300Wx can show the IP address used by the Konftel IP DECT 10 base station.
